

International Women's Day  
Sunday March 10 service in Halifax

Christy-Lee Bojarski, our new Religious Exploration director, spoke about her very difficult early years and her movement from victim to survivor. She is a poet, and her poetic text went straight to the hearts of her listeners. Her presentation was followed by the video "One Woman" just released by the United Nations entity on Gender Equality and the Empowerment of Women – also a very moving experience for the congregation. Mary Lu MacDonald talked about differences and similarities in women's experiences and what the CUUWA plans to do supporting women around the world and Canadian UU women in particular. Rev. Norm Horofker spoke about the experience of women both worldwide and locally and about what we, as a congregation, can and should do. All the hymns were by female composers. The meditation reading was the quotation from Margaret Laurence found on our website.
